Australia

Dear Damien,

I write to tell you how pleased I am with the new treatments of **DOWNTOWN** and I'm confident Petula will feel the same.

As you know, I've lived with the song for nearly forty years now and there have been many different versions cut in that period. This one, however, is very contemporary, quite unique and, I believe, should reach out to an entirely new generation.

I congratulate Alex Martin "The OUTpsiDER" for his imaginative transformation of the original record from 60's classic to a sound of the New Millennium – a sound of today.

I'm also impressed with the credentials of all those who will be involved in the marketing and promotion of the record. There's no doubt it's a great team.

I will be happy to give as much support as I can to make the 'new' **DOWNTOWN** a huge global success in celebration of it's 40th Birthday.

All best wishes,

Tony Hatch

**TONY HATCH**
